SUMMARY

Frontend-heavy MERN Stack Developer with 2+ years of experience building scalable, user-centric web and mobile applications. Proficient in ReactJS, React Native Node.js, Express, and MongoDB, with strong expertise in TypeScript, GraphQL, and MUI. Experience

PROFESSIONAL EXPERIENCE

App Developer, Verona Matchmaking

May 2025 - Present

- Developed and optimised **React Native** UI components, ensuring responsive layouts and a seamless cross-platform user experience.
- Implemented **photo cropping, drag-and-drop**, and media handling features, enhancing user interaction and workflow efficiency.
- Integrated **in-app payment gateways** for both **Apple App Store and Google Play Store**, including purchase validation and subscription handling.
- Improved application performance by optimizing component rendering, reducing load times, and minimising unnecessary re-renders.
- Leveraged native modules and **platform-specific code** (iOS/Android) to deliver device-optimized functionality.
- Managed **app deployment processes** on the App Store and Google Play Store, including build configuration, signing, and release coordination.
- Monitored **crash analytics** and user behavior with tools like Sentry to proactively improve app stability.

Software Development Engineer -1

Jun 2023 - Jul 2024

- Initiated a custom UI library for generating 3D drawings of mechanical auto parts using Three.js.
- Initialized **Storybook design system** for custom UI components and integrated 15+ components.
- Implemented **MongoDB Atlas search** and created a custom reusable Autocomplete UI.
- Developed **Progressive filters API's**.
- Developed a custom API that integrated with the existing backend to streamline data flow between frontend applications and databases, **improving response times by 40% for user requests**.
- Implemented responsive and accessible design, ensuring compatibility across multiple devices and browsers, boosting user engagement by 25%.**
- Optimized web application performance by integrating advanced JavaScript and TypeScript techniques, **enhancing speed by 20%**

SKILLS

Front End Technologies :-	React.Js, React Native, Expo, Tailwind CSS, Material UI, Three.js, Storybook (Design System), Redux
Back End Technologies :-	Node.js, Express.js, GraphQL, RESTful APIs, Middleware Development,
Database/Tools & Platforms:-	MongoDB, CI/CD pipelines, WebSockets, Agile Methodology, Data Structures

EDUCATION

Maharshi Dayanand University	Jun 2020 - May 2024
B.TECH, Computer Science
